

A HAPPY EMPLOYEE...

IS A DRIVEN EMPLOYEE

The Pace Vanpool Incentive Program is a benefit your employees will appreciate, and can be implemented by Pace at no cost to your business!

Not only does the Pace Vanpool Incentive Program potentially save its participants thousands of dollars per year on their commuting expenses, it also benefits your company by:

- Boosting employee productivity by eliminating the stress caused by driving
- Expanding your potential labor pool through increased access to your facility
- Improving employee retention by providing a reliable and affordable way to work
- Reducing parking requirements
- Enhancing your image by promoting an environmentally friendly alternative
- Saving on taxes through payroll deduction (optional)

The Pace Vanpool Program has successfully been serving Chicagoland for 20 years with over 250 commuter vanpools currently in operation.

How does it work?

A minimum of 5 people is required per van. One of the participants volunteers to drive, and is rewarded by not having to pay the monthly fare and also receives 300 personal miles per month! Illinois Compiled Statutes (625 ILCS 5/10-202) provides employers with liability protection.
